la santé

MEMO

To: Catholic health care organizations

From: James Roche, President
Catholic Health Alliance of Canada

Subject: World Day of the Sick — February 11, 2010

Pope John Paul II instituted World Day of the Sick in 1992, setting aside February 11, the feast of Our Lady of Lourdes, for its annual celebration.

Each year the Catholic Health Alliance of Canada produces a resource package to assist members in celebrating the World Day of the Sick within their organizations. Enclosed you will find:

- a prayer card;
- camera-ready artwork;
- a flyer providing a list of suggested activities; and
- a suggested format for a prayer service/liturgy.

As in the past, the CHAC has worked with the Pastoral Health Care and Social Services Centre (Diocese of Québec City) to produce a number of other resources for World Day of the Sick. We are pleased to include with this package a sample prayer card and poster. Information on how to order additional cards and posters is enclosed.

We welcome your suggestions and feedback.

These and other World Day of the Sick resources are available on the CHAC website at: www.chac.ca
