I wish to extend to each and everyone my sincerest thanks for your past and future efforts in the hospital field from East to West and North to South.

Added to your efforts, may your devoted perseverance in this chosen career bring you real happiness in your dedication. May these efforts be crowned with great success and continued satisfaction.

My fervent prayers will accompany you always.

May the dear Lord bless you all dear Librarians

of yesterday — today — and tomorrow!

Sister Therese Chaloux s.g.m.,
Superior Administrator.

To All My Dear Graduates of 1955-1965

It is an honor and a great pleasure for me as your Directress of School, to take this opportunity to write a few words in this SOUVENIR BOOK.

This year 1965 marks a very important event for you dear graduates as well as for me. Yes, ten years have passed since eighty-five young ladies eager, ambitious, full of hope and enthusiasm, longed to see their dream come true; "to become a professional Medical Record Librarian."

On such occasion, I would very much like to quote a few words written by one of our pioneer leaders, Reverend Sister Campion, who was the very first directress of Medical Record Librarians School in Canada. I quote: "The main object of all organizations of Record Librarians is that they shall play their part in the hospital field, with efficiency and a spirit of co-operation. History proves indisputably that all pioneer work is 'soul-trying.' We are pioneers in this field, and much self-sacrifice, courage and patience is needed. If there are those who through lack of understanding or sympathy, discount the important work of the Medical Record Department, let us not be disheartened. **We know the service we can give, and let us be resolved to render it at all costs . . .** Future years will prove that we were no visionaries."

My Dear Librarians :

What was said to librarians of thirty years ago, could very well be applied to us at this time. I am in full agreement with our devoted pioneer leaders and directresses of schools of the past, Reverend Sister Campion and our dear Sister Mary Paul, from St. Michael's Hospital in Toronto., Ont., who passed away recently.

Let us ask these two dedicated librarians of the past to intercede for us and obtain from the Almighty the virtues and qualities which will make every one of us "TRUE LIBRARIANS OF THIS MODERN AGE."

Let us remember that the secret of happiness is not in doing what one likes, but in liking what has to be done.

On this tenth Anniversary, we all feel so very happy, as we recall all the different things these ten years have brought our way. Your directress is most proud of you dear girls and reverend Sisters, and there is no better opportunity for me to congratulate you, and extend my best wishes.

May the future be as happy as these ten years have been to you. Let your co-operation, your interest, your loyalty, your enthusiasm of the past, ever be the signals which will make you always the librarians we expect you to be.

May God bless you in all your endeavours.

Sister Marie Paule Rheault s.g.m. RRL,
Directress.

School of Medical Record Librarians

of medical record librarians.

In Witness Whereof we have hereby ascribed our names

President

Sister Mary Paul, R.R.L.
Chairman of the Board of Registration

TENTH YEAR FOR LIBRARIANS' SCHOOL

The Edmonton General Hospital School of Medical Record Librarians opened its doors in the month of January, 1955. Since that time, it has had 85 young girls who graduated and are now recognized across Canada as registered record librarians through the board of registration of the Canadian Association of Medical Record Librarians.

The school takes every opportunity to give each student all the theoretical knowledge possible, with the necessary practice to acquire all the technical skills which will qualify them as organizer and manager of any medical record department in hospitals, clinics, doctor's offices and health agencies.

The purpose of the course is: 1—To elevate the standards of medical records in the hospitals thereby elevating the standards of patient-care; 2—To give effective academic and practical experience to enable the student to master the knowledge and skill required to perform all duties of a medical record librarian; 3—To develop in a student a clear understanding of her professional status, making her conscious of all qualities which will meet the needs of the patient — the physician — and the hospital.

The school's philosophy is to develop the characteristics and personality traits expected to be found in any professional para-medical groups.

APPLICANTS ELIGIBLE:

To be eligible for this training, the candidates should have good physical health, a sound moral character, a mature personality, and leadership ability as well as good sound judgement.

Her future duties as custodian of records, will demand proper and adequate training. She will be shown how to analyse, assemble, and check each medical record, in order to be able to determine its completeness and its accuracy and adequacy before storing these records away.

She is taught to remain ever conscious of the fact that medical records are kept to benefit the patient, the hospital, and the doctor and contribute greatly in medical research and educational program.

TENTH YEAR FOR LIBRARIANS' SCHOOL . . .

The applicant must have senior matriculation with an average of 65 per cent, and/or school diploma and/or nursing registration of an approved nursing school. She must also have typing and dictaphone ability.

CURRICULUM:

The curriculum is the one approved by the registrar of the Canadian Association of Medical Record Librarians. It is a twelve-month course, with four hundred and fifty hours of theoretical lectures; eight hundred and seventy hours of practical assignments under the close supervision of a registered record librarian.

Towards the end of their training, arrangements are made to visit different sized hospitals, clinics, health agencies, etc. These field trips are greatly appreciated by the students as they feel they are most helpful in broadening their views.

The theory taught during the year includes the following: anatomy and physiology — 100 hours; introduction to medical science — 75 hours; medical terminology — 45 hours; medical record science — 191 hours.

The medical record science theory includes: history of hospitals; history of medical records in all its aspects; organization and management of a well-organized department; all systems used in such a department; the two methods in use for coding diseases and operations, etc.

They are well informed of the new trends pertaining to a medical record department. They are made aware of the fact that they will succeed in their professional career inasmuch as they keep pace with progress or new developments in our special field. To walk step by step with the scientific age will lead them to the right goal.

Once the whole curriculum has been discussed and studied, they must pass an examination on the theory taught as a whole. If they are successful, they are given a graduation pin and certificate issued by their own school. Each graduate is to write another examination set by the registrar of the Canadian Association of Medical Record Librarians and if she obtains a 75

per cent pass mark she then becomes a Registered Record Librarian (RRL).

All graduates recite the Medical Record Librarian Pledge which consists of all qualities which they should endeavour to uphold throughout their career as Professional Medical Record Librarians.

PLEDGE
of the
CANADIAN ASSOCIATION
OF
MEDICAL RECORD
LIBRARIANS

I solemnly pledge myself, with the help of God, as a True Member of the Canadian Association of Medical Record Librarians, to maintain at all times the high ethical standard of my profession, to endeavour with persistency, progressiveness, and profound respect to be worthy of the trust conferred upon me; keeping in close secrecy all knowledge of a confidential nature pertaining to my profession; revealing such required information only to those authorized to receive it.

I will be loyal to the Institution in which I practice my profession, adhering to the policies of said Institution and its Directors; meeting the public with courtesy and tact; and aiding the physician in any way which may help him in his search for knowledge, having as its object the comfort of mankind.

THE LAMP ♦ THE OPEN BOOK ♦ THE SERPENT

The "Lamp" is a symbol of Christian Guidance, knowledge and enlightenment as portrayed in Christ's word to His Disciples, "Let your light so shine before men that they may see your good works and glorify your Father, Who is in heaven."

The "OPEN BOOK" signifies perfect intelligence, the "Word" is a lamp unto my feet and light unto my path. . . .

The "SERPENT" symbol of Evil Spirit, is shown in opposition to and vanquished by the force of God, in the sense of Christianity triumphing over the force of Evil. The staff and serpent of Aesculapius, fittingly appear in a design connected with Medical Science. . . .

SHOOL SONG

TUNE OF "LONG, LONG AGO"

*Look to the future, your course is now clear —
Great piles of charts, huge piles of charts
We're sorry to lose you but go without fear,
Of those huge piles of charts — piles of charts
Some will be finished but most of them will not.
Signatures and loose reports and then to code the lot.
Have faith in yourselves and what you have been taught.
And then work on those huge piles of charts.
When you start on your own it will be quite a change
With no room for files, no room for files.
"Oh — where shall I put the charts — it's all so very strange."
No room for files — room for files.
Then will begin the seeming everlasting fight
"We need some new equipment with more space and lots of light."
So — Good luck girls, and don't forget, when in despair — LOOK BRIGHT.
There is lots of room for smiles — room for smiles.
We wish you luck as you enter your profession
Good wishes from us all, good wishes from us all.
Don't let the new job send you into a depression
Wishes from us all — from us all.
We hope your charts from the wards will be complete.
We hope the doctor's writing is readable and neat.
We even hope the doctors will say "She's a real treat."
Good wishes to you all — from us all.*

TUNE OF "SCHOOL DAYS"

*Good luck, good luck, we'll miss you all, but Good Luck,
It's 'itis' and 'osis' for you my dears,
As you start on your own and go through the years.
And do not forget to bring out those smiles
As you frantically straighten some untidy files
And the charts of the doctors heap up in great piles.
So — Good Luck from us all who stay here.*

*With a happy smile and bright blue
eyes,
Our fair complexion girl
Is a very competent librarian,
Is an "A-1" PAS. GAL.*

MISS DIANNE GORDON

*Not as we take, but as we give,
Not as we pray . . . but how we live.
She meets the challenge of every day
In the same calm, unaffected way.*

MISS CHARLENE GILBERT

*Cheerful and smiling, a lovable lass,
Quick and efficient, a boon to our
class.
No job is too hard for her to do;
This sure spells "reliability."*

DON'T QUIT

*When things go wrong, as they sometimes will,
When the road you're trudging seems all uphill,
When funds are low and the debts are high,
And you want to smile but you have to sigh,
When care is pressing you down a bit,
Rest if you must, but don't you quit.
Life is queer with its twists and turns,
As every one of us sometimes learns,
And many a failure turns about,
When he might have won had he stuck it out,
Don't give up, though the pace seems low —
You may succeed with another blow.*

*Often the goal is nearer than
It seems to a faint and faltering man.
Often the struggler has given up
When he might have captured the victor's cup,
And he learned too late, when the night slipped down,
How close he was to the golden crown.
Success is failure turned inside out —
The silver tints of the clouds of doubt
And you can never tell how close you are,
It may be near when it seems afar,
So stick to the fight when you're hardest hit,
It's when things seem worst that you mustn't quit.*

A WORD OF THANKS

I thank you for your goodness

For your kindly thought of me

But poor is human gratitude

And so we'll let it be.

But here's my heart's acknowledgement

In simple speech expressed

May the good God bless and thank you

In the way that He knows best.
