REVEREND SISTER G. JARBEAU, S.G.M.
Superior and Administrator

Dear Graduates

I WISH to express to you my sincere congratulations on this your graduation day.

For three years we have worked together, during which time Sisters, Doctors and Nurses have toiled to fashion in you a living, glowing ideal of the spirit of

The knowledge and skills of competent nursing you know well but the spirit of nursing is more than technique and treatments. It is not something we can reach out and touch with our hands; it is intangible, invisible, yet very real. It is a constant willingness to give oneself to the relief of human distress and suffering; a love of one's work; the faith to see God in the sick you care for. If this is not a constant motive in your work, you are wasting the most precious value your nursing life can have.

The key to possess the real spirit of a nurse is—always do the best you can to please God, whether you will be thanked or rewarded. In so doing you will be happy in your work, you will be good nurses.

If you keep this spirit of a nurse every day of your life—then God must be thanked for having given you to a sick world.

SISTER GERTRUDE JARBEAU, S.G.M.,
Superior and Administrator.

REVEREND SISTER M. THILLE, S.G.M.
Director of the School of Nursing

Dear Graduates:

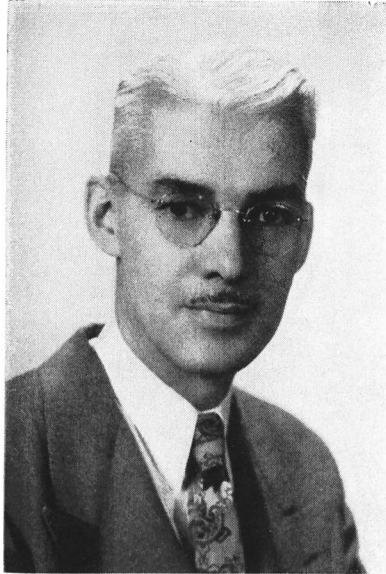

GRADUATION—a time which designates an achievement; one also which marks a beginning in one's life. This it is for each of you today. You experience, with reason, that profound joy and peace which crowns the efforts of a task well done. Sincere congratulations, dear graduates! We are proud of you and your success.

Today as you stand on the threshold of a new life you are grateful to your parents and educators for their encouragement and assistance in the attainment of your goal. As graduates you face a challenging future; one which will give you the opportunity of becoming more familiar with the other kind of gratitude, that resulting from the giving of oneself to others. Doubtless, you have already experienced it frequently during the nursing course for many a time you have had the occasion of brightening the life of another.

Your future life will be one of continual service and sharing of knowledge and of self for the love of Christ and fellowmen. In order to reach the summit keep in mind that one cannot give what one does not have. Be persistent, then, in ever challenging your intellectual powers, in growing constantly in charity for God and for others.

My last prayer for you is: "Lord, grant that they may be ever conscious of their eternal destiny. Teach them to be as generous with others as you are with them, and give them the strength to perform all their works for your greater glory."

SISTER MARY THILLE, S.G.M.

REVEREND FATHER M. MESSIER
Chaplain

Dear Graduates:

"SO LET your light shine before men that they may give glory to your Father who is in heaven." This command of Christ should have a special and glorious meaning for you who dedicate yourselves to the service of the sick. From you the sufferers in mind and body will expect excellence and service and spiritual guidance by work and example. They will look upon you not as medical machines but as people in a high and pure realm, working close to the great decisive moments of life and death. Sometimes your devotion to duty may reach the heights of heroism and be recorded in newspapers but how much more satisfying it will be to know that it will be engraven in human hearts and in the unerring annals of God. This will be possible only if your lamp is lit with the fire of Christ's charity.

Nurses are one of the greatest influences still left. Leave not your potentialities dormant. Make it a vibrant resolve that you will use your skill to save human bodies and enlighten and uplift human minds. Always work close to your leader and divine Healer.

In brief, be Real Nurses, not mere medical automatons. Our world needs charity terribly, right now! May all our patients be healthier, but especially kinder and nobler for having been under your care.

Yours devotedly in Christ,
REV. FATHER M. MESSIER, Chaplain.

Dear Graduates:

THIS is your Graduation; the day on which all your dreams and aspirations have come true; the day on which all the work, study, self-sacrifice and ambitions which were yours during these years of nursing education have culminated into a glorious achievement. Congratulations on this memorable occasion!

It has been a pleasure to be associated with you through the years, sharing your joys and troubles. We hope that in so doing we have been of some assistance to you.

Now you are ready to go and spend your days helping suffering humanity. Be ever mindful of your role as women in the world today. Hear the voice of His Holiness Pope Pius XII who tells us that, more than ever, mankind today needs women who are ready to give of themselves, assisting thereby to bring the modern world back to Christ.

Once again, dear Graduates, congratulations. May God bless your life and work with that peace and happiness which He has intended for all those who do His Holy Will.

Dear Graduates:

OUR sincere best wishes for success in your chosen profession. You are leaving the school and are facing a great challenge: "the opportunity to help mold the profession in this period of change." We hope that you, as graduates of this school, will take your place as leaders in your field of endeavor.

In your associations with other members of professional groups, listen but do not accept everything at face value; do your own thinking. All that is new is not necessarily the best nor should you cling to the old, unless it has been evaluated recently. Keep abreast of the latest trends, selecting only those which appear to have the greatest value.

Continue your own development; associate with enthusiastic, far-sighted individuals who will help you reach your goal.

Good luck and God bless you all.

Editorial

THREE YEARS of training seem endless at the beginning of our course, but, looking back, they are short, memorable years which each of us will cherish throughout our lives. Each of us can recall daily happenings which we will never forget.

"Blessing the newborn babe's first breath;
Closing the eyes that are stilled in death."

At graduation, we pause to express our thanks to Reverend Sister Thille, Director of our school of nursing, and the nursing instructresses, staff doctors and nurses whose understanding and patience have guided us to our goal.

The time is passing quickly, and soon our term on the executive of the yearbook will be at an end. It has been a good year, and for this we can thank the entire student body.

As retiring editor, I wish success to the new executive. "Estote Fideles" is your yearbook, and only by giving wholehearted support to its executive can it function well. Suggestions are always appreciated, because only by them can your yearbook staff learn what you want to read. With the support of the student body, the yearbook can go on to bigger and better publications.

President's Message

Dear Fellow Students:

HAVING had the privilege of living and working so closely with you, I am equally happy to share graduation with you, classmates, and with those who anxiously anticipated the joys of this wonderful day.

Being a graduate is so new that I hesitate somewhat to glance into the future and prefer asking you to drift back mentally with me over our experiences together.

Remember our "proble" days. We plunged into our new life wholeheartedly, with energy, high ideals, and the desire to be the best nurses possible. We had little conception of what the profession we had chosen was really like, for it was a disillusion to find that this seemingly still water had depths—depths of sorrow, fatigue and discouragement. We came to know moments when we wondered if we would ever be able to rise from the depths to the heights we had envisioned.

However, slowly, by the example of the Sisters, by the knowledge imparted with kindness and by the courage and trust of a patient, we caught a glimmer of a Divine plan—a plan in which we had been given a special part. And so, in God we found the strength to rise to the surface and emerge with changed attitudes and outlooks.

Returning now to the present, let graduation be a pause in which we stop to give thanks for the education we have received. Let us then with confidence and trust accept the future task that is ours, ever endeavoring to attain the Heights.

MARIE BRENNAN, President

Valedictory

Today marks the end of our student days at St. Boniface Hospital. Today we bid farewell to our nursing school, our hospital, teachers and student friends. The school that has been our home for three years and all that those three years have included — class parties, study periods, exam worries — become a part of our past as we receive our black bands and diplomas.

In the years that lie ahead, we shall often recall our student days. We shall think of them then, as we do now, with mixed feelings: with regret for duties that could have been done more thoroughly; with sadness because we must leave our friends and the everyday things that have become so familiar to us; with gratefulness and at the same time pride that we have completed our course. We are indeed grateful to a profession which gives to us a future that can be so rich with rewards.

Many people have helped us to achieve the success that is ours today. Although we can never fully repay them for their guidance, we would like to give something in return to show our appreciation. They, much more than we, deserve roses. We would like to distribute our bouquets to them.

The first rose would go to you, Mother, who probably gave us the initial desire to become a nurse; for it was you who always comforted us during our childhood illnesses and tribulations. Your motherly kindness and concern have been invaluable over the past three years.

Although flowers are generally given only to the "fairer sex," there is a gentleman high on our list and he, of course, is Father, our financier and imparter of many pep-talks. We have tried so hard not to let you down and to justify the pride you felt in having your daughter become a nurse.

Perhaps no one deserves roses more than our Director, Sister Mary Thille, who, throughout our course, has been close at hand with understanding, encouragement and patience. With our rose to you, Sister Thille, comes a heartfelt "Thank you very much. May we always be a credit to you and our School."

Our instructresses merit roses for generously sharing professional knowledge. Without your instruction from the time we entered as eager, yet fearful, probationers, we could not have succeeded. We know now that your concern and interest was always to our advantage. May you ever be proud to say "They were our students."

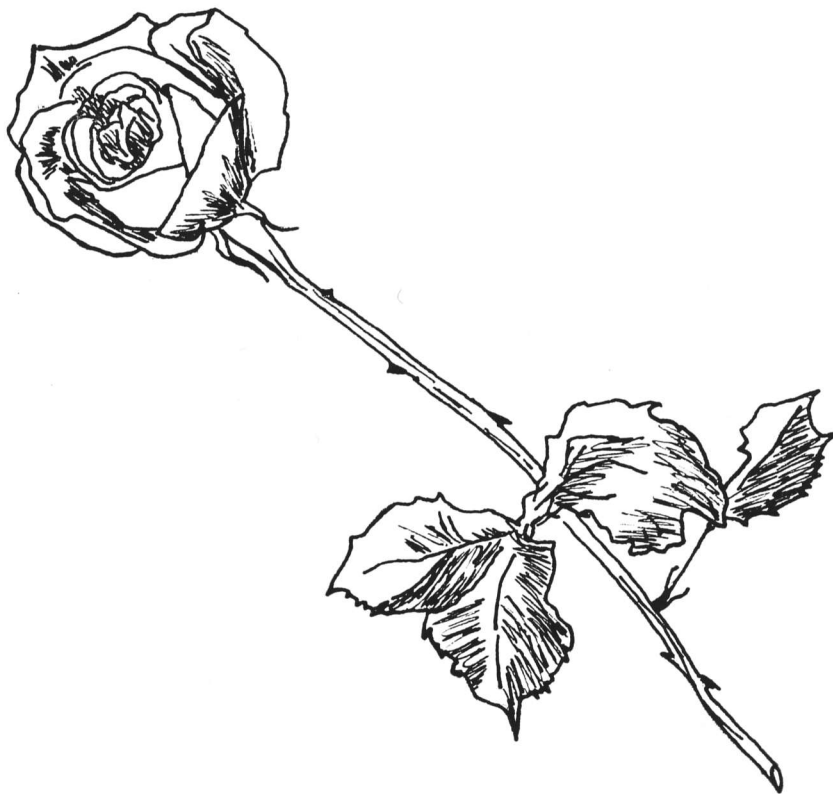

To the entire staff of the hospital — doctors, internes, graduate nurses and all with whom we have had the good fortune to work — "Thank you for

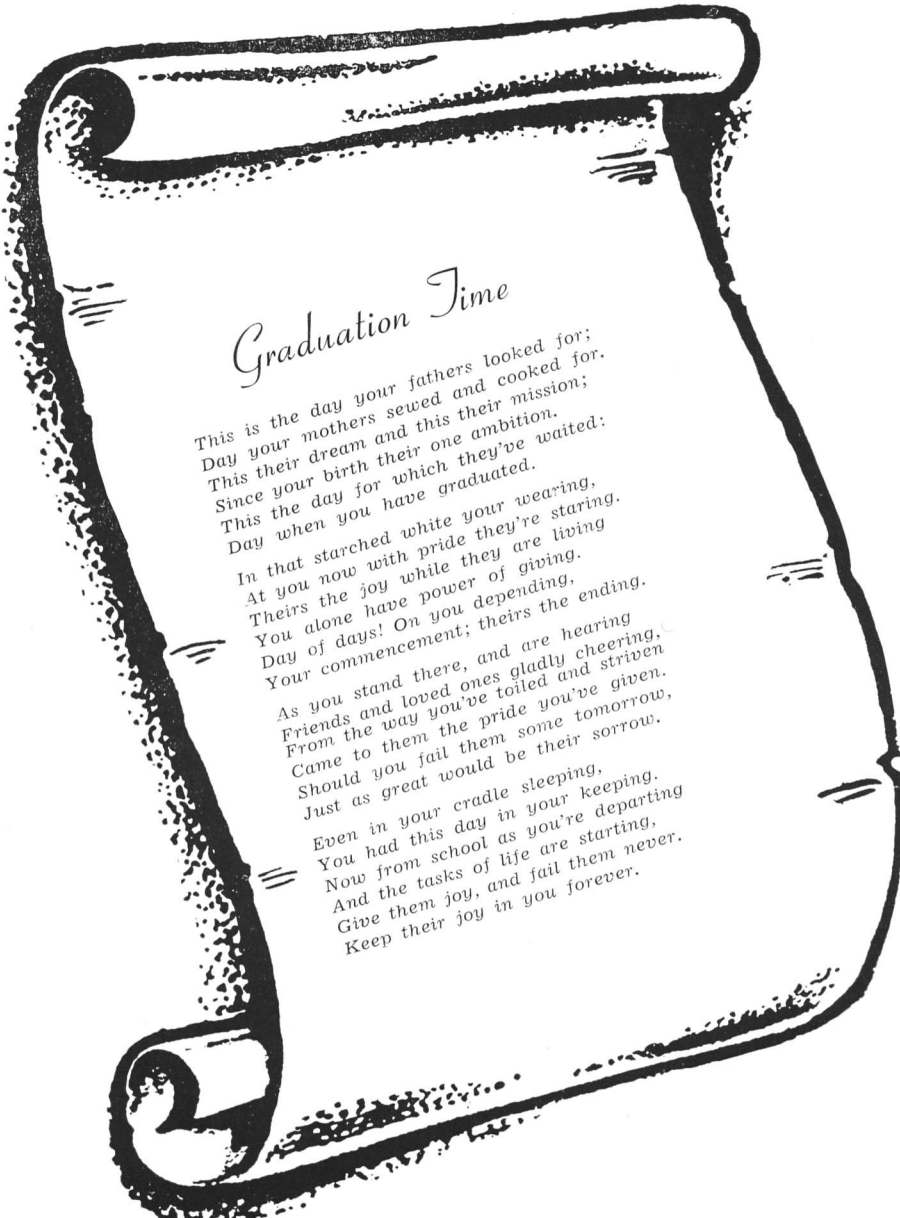

your interest and help in our career."

This does not include all of our benefactors. Let us not forget our patients. When the routine seemed dull and even mechanical, the simple, sincere "Thank you, Nurse" made us realize that there was rich reward in our profession and made us resolve to do our task better.

We have gained something more than professional skill in our three years at St. Boniface. We have become aware that our lives are guided by a force much greater than ourselves. We have come to realize the true meaning of Christ's words, "Whatsoever you have done to the least of my brethren, you have done unto Me." May we remember this as the greatest lesson of all and endeavor always to be worthy of serving Him through nursing the sick.

LILLIAN LEWANS
Valedictorian

Graduation Time

This is the day your fathers looked for;
Day your mothers sewed and cooked for.
This their dream and this their mission;
Since your birth and this their ambition;
This the day for which they've waited:
Day when you have graduated.

In that starched white your wearing,
At you now with pride they're staring.
Theirs the joy while they are living
You alone have power of giving.
Day of days! On you depending,
Your commencement; theirs the ending.

As you stand there, and are hearing
Friends and loved ones gladly cheering,
From the way you've toiled and striven
Came to them the pride you've given.
Should you fail them some tomorrow,
Just as great would be their sorrow.

Even in your cradle sleeping,
You had this day in your keeping.
Now from school as you're departing
And the tasks of life are starting,
Give them joy, and fail them never.
Keep their joy in you forever.

Team Work

*The world is full of problems,
There's much to cause distress;
We all are bowed beneath the cares
That daily round us press.
There's only one solution,
'Tis simply stated thus:
"A little less of you or me,
A little more of us."*

*The rule of each one for himself
Most foolish is to follow:
It brings no savor to the game,
Its victories are hollow.
But the other plan has never failed
To bring satisfaction, plus:
"A little less of you or me,
A little more of us."*

*A flake of snow is very small,
'Tis lost to sight quite quickly:
But many flakes combined will fill
The roads and pathways thickly.
United we can face the fight
Without distress or fuss:
"A little less of you or me,
A little more of us."*

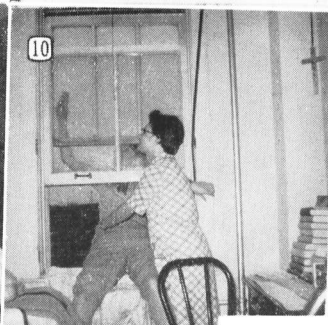

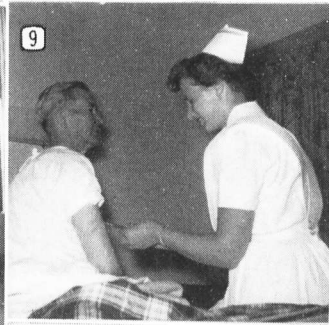

Society of the Children of Mary

PERSONAL spiritual growth and an increased realization of the responsibilities and opportunities of a Catholic nurse have been the focal point of Children of Mary activities this year.

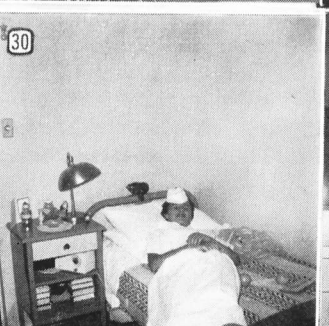

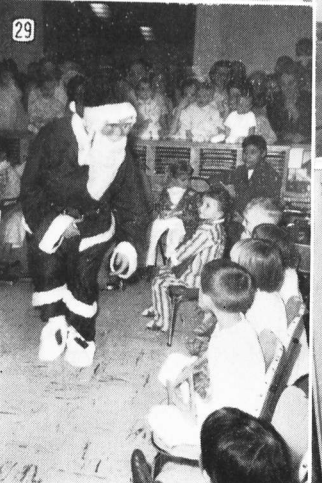

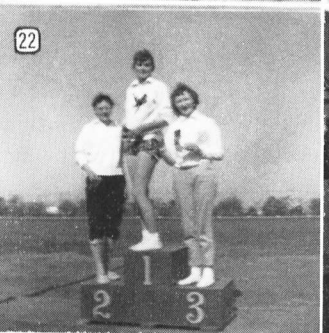

A monthly bulletin and First Friday evening dialogue Mass were introduced. The Feast of the Immaculate Conception was celebrated with the Rosary by candlelight. Monthly meetings were highlighted by guest speakers and group discussions. The Annual Penny Carnival was also an outstanding event.

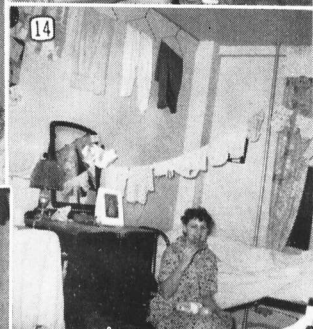

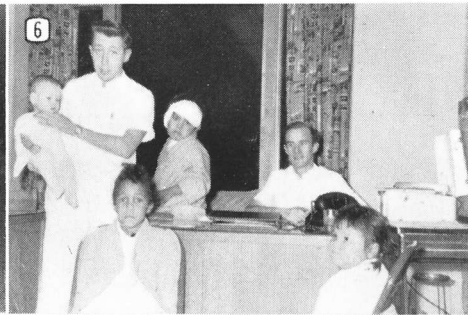

The success of the year is due to the devoted work of many, and, on behalf of the Executive, I extend grateful thanks to Father Messier for his support and interest throughout this term. A special thank you to Sister Thille, our Director, for the guidance and never-failing encouragement. Most directly these achievements were due to the students without whose efforts nothing could have been attempted or accomplished. May God continue to bless these efforts.

Many thanks are due to the members of the M. S. N. A. for supporting M. S. N. A. ventures so enthusiastically this year. Our most outstanding event was a "track meet" held at Sargent Park, with all schools of nursing participating. St. Boniface won the meet, closely followed by the General Hospital, and Misericordia was third. The good sportsmanship shown by the girls at the field was indicative of the companionship felt in all M. S. N. A. endeavors.

As usual, our square dance and formal were popular social events.

At the time of this writing, plans are being made for the Variety Concert to

be held in March. There is ample latent talent in our schools to supply a full evening of fine entertainment.

Our election meeting—the highlight of the year—is scheduled for May, and a grand finale is set for an informal dance at the new General Hospital Residence in June.

A little bit about the M. S. N. A.: Each nurse is a member of the M.S.N.A. upon completion of the preclinical period and should, therefore, endeavour to know and understand the value of belonging to this organization. Our world grows wider every day, and our interest more varied when we meet

ALUMNAE GREETINGS

Dear Graduates

It is my privilege to send you greetings on be-half of the St. Boniface Nurses' Alumnae Association, your own Associtaion, now that you are graduates of the St. Boniface School of Nursing.

May we, who have gone before congratulate you on finishing your three years of training?

We know that you realize it is only a beginning and that you must go on learning, as T. H. Huxley said, "If a little knowledge is dangerous, where is the man (or woman) who is out of danger?"

We hope you will take full opportunity for advanced learning and go on to serve your community, wherever you are, with God's Blessing.

But always remember the Golden Cord that ties you to your Alma Mater, your Alumnae Association. Here we may work together as friends for the betterment of our school and nurses everywhere.

"So it's giving and doing for somebody else,
On that all life's splendour depends,
And the joy of the world when it's all figured up
Is found in the making of friends."

Keep the old and make new friends by joining your Alumnae.

Sincerely,

Kae McCallum,
President,
St. Boniface N.A.A.

Social Calendar

Our social calendar started in August, with a Big-Little Sister party, welcoming the new students who arrived much earlier this year than usual.

October brought the new Preclinicals out of their hiding places, and away from their books, to introduce them to three days of bowing, shining shoes, eating all meals with a large soup spoon etc., — indicating that it was initiation week again.

A Haloween theme was the setting for the Initiation party, and the new students displayed good sportsmanship in accepting their penalties. Well done kids!

Our annual December Christmas Concert, under the direction of Sister Thille, with the students participating in a play, skits, musical selections and a lovely Christmas Pageant added to the Christmas Spirit at St. "B."

A visit from Santa at the party, with his sack full of gifts, including a lovely T.V. from the Sisters, topped off the evening of fun and entertainment.

Another Big-Little Sister party welcomed the new January students.

The social committee is making plans for the future months, and this will include:

Three more days of fun, frolic, pranks, and penalties of Initiation week in March, St. Patrick's Day will be the setting of the Initiation party.

We are planning a Theatre Night as a money-making project to help raise funds for the student council, during the month of April.

If time permits we would also like to have a mixed social evening in June or July.

We would like to take this opportunity express our thanks to the Sisters for their co-operation and lovely lunches; Mrs. Topolinski, our Social

Advisor, for her many suggestions and time she devoted to helping us, all the students of St. "B," and last but not least the Social Reps. Without you this social calendar would not have been a success and very enjoyable year.

JUNE WEBER, *Convenor*

Sports

September saw the sports activities start with a bang with an inter-school Track and Field Meet being held at Sargent Park. A new trophy was presented to the winning school by the Doctors of St. Boniface Hospital. Much to our credit the St. Boniface girls captured the Dr. Funk Memorial Trophy and brought it home to its rightful resting grounds.

For February we have the beginning of Basketball activities every second Friday Night at Norwood United. This will be something new and we hope it will be enjoyed by the participants. The first game of the season will be a "rip snorting" game with the Senior Students and the Grads. We can all guess who will win!

March will see a swim night with prizes for diving, racing, fancy strokes and other forms of "swimming." And then of course, ye olde winter favourite of skating was predominant throughout.

With the coming of spring, the girls can all look forward to happy hours of competition in volley-ball and tennis on our own courts and baseball across the street at La Verendrye Park. Then too, the very informal annual Student-Intern Baseball game rounds out Spring activities.

In closing we would like to offer our thanks to Sister Thille for her kind co-operation and understanding, to all our supportive instructressees, and cheers to the girls themselves, who with their competitive and moral support helped to make this sports year so much fun.

MARY NICHOLSON, *Convenor*

Glee Club

Weekly practice began early in September. We were happy to have Mrs. R. Gislason, our director of the past two years, with us again.

Practicing for the annual Christmas concert got underway immediately, featuring the "Gloucestershire Wassail," a traditional old English carol, a "Lullaby" by Schubert, and last years favourite "Carol of the Bells." The choir also supplied the carols for the Pageant of the Nativity.

Enthusiasm, apparent at the beginning of the season, unfortunately soon waned. However, we were appreciative of the small but faithful group which enabled us to make our contribution to the concert.

On January 7th, Christmas Day by the Julian calendar, a group of students spent the evening at nearby Tache Home for the Aged and Infirm. Here, we were greeted with happy smiles, our friends joining in the carols and requesting their favourites. On one floor we were accompanied by one of the residents playing on an old. out of tune, but still effective organ.

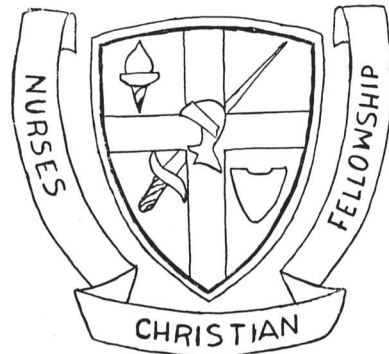

The Glee Club has now been re-organized and we are hoping for more co-operation from the members during the remainder of the season.

The concluding event of this years programme will be the Graduation Ceremony on May 1st, at which the

Glee Club will endeavour to add its tribute, in song.

On behalf of the music committee I would like to thank our accompanists, Miss Dunn and Miss Belton; Sister Thille and Mrs. Gislason who have given so willingly of their time and effort to guide and help us in our activities.

B. BERNIE, *Convenor*

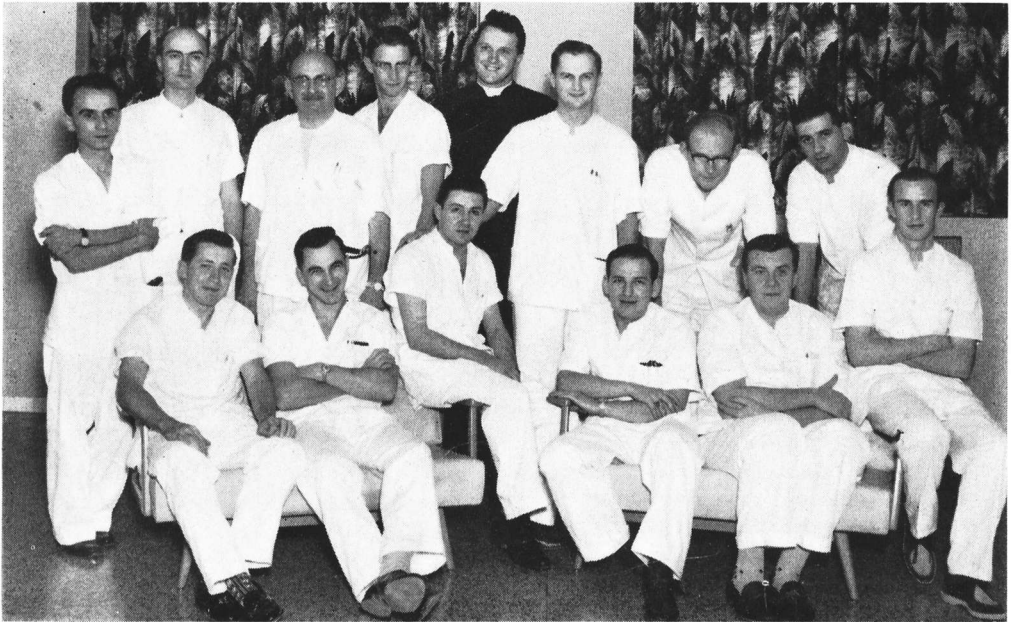

Nurses' Christian Fellowship is a branch of the International Varsity Christian Fellowship which is an inter-denominational organization. It had its origin at the Cambridge University in 1877; by 1928 it was well established in Canada, and at present is active in twenty one foreign countries.

All our activities are student-led and are aimed towards growth of a consistent, Christ-centered life. Bible study and discussion of topics such as: "The Problem of Pain," "The Life of Christ," and "Sacrifice" constitute our regular programme of weekly meetings held in the residence class-room. Among our special speakers we have had a linguist of the Wycliffe Translators, who told us of her work in the Phillipine Islands, and a nurse from the Belgian Congo Mission in Africa.

We have a bond with other N.C.F. groups in Winnipeg hospitals when we share in their regular meetings, or join with them in social events such as our swimming party at the Misericordia Hospital. October heralded our Fall Conference at Star Lake and February

The time of training is drawing to its close for the young women who publish this book. We, the internes, who have worked with you, have also completed our training, and look upon you with fraternal fondness. Very shortly, the day will be here when we can hand out sage advice to our successors on that all important subject, "How To Get Along With Nurses." We shall set ourselves up as experts and tell of the "unnecessary" calls in the middle of the night. We shall probably paint portraits of you as terrible ogres, out to make a new interne's life miserable. But within a week the new boys will no doubt discover for themselves that you are working with them, not against them.

Last June, we found you as strangers, some of whom we had seen passing through the tunnels of our hospital as a mob of giggling, heel-dragging teen-agers, or so you seemed. Through the year we have come to know you as individuals on the wards, and each name now has a special meaning for us. You have taught us, in a large measure, how to be good internes, for you have shown us how to look after our patients in their day-to-day care. We have learned from you; we have learned together; and we hope you have learned from us.

When the roses appear on the wards, we wish for each of you, that the best in life may be yours.

students of other schools of nursing, for it is an accepted fact that each hospital is a different little realm in itself.

We are fortunate in having had an interested and very capable representative of the M. A. R. N., Miss Nordwich, of the Misericordia Hospital, as our advisor.

For our executive committee, I feel that the various schools sent their very best student to be their leaders in the M. S. N. A. The girls were so enthusiastic and conscientious that it was a pleasure to work together with them towards our objective of "creating a bond of union between the schools of nursing, and promoting mutual understanding and helpfulness."

We sincerely hope that the M.S.N.A. activities of 1957-58 have been of value to every student nurse in Manitoba, to broaden her horizon of knowledge and professional relationships.

Thank you for this memorable year.

CHRISTIAN FELLOWSHIP

(Continued from page 45)

brought the Nurses' Day at the Elim Chapel, Winnipeg, both united projects with all the groups participating. Once each month, the Varsity groups invite us to their Firesides. This year marked the fifth triennial Missionary Convention at Urbana, Illinois, at which some of our nurses joined students from around the globe to learn of the present world situation and needs in relation to Christianity.

Through N.C.F. we meet a need to know more about Christianity in a positive and practical way so that it can be applied to the "today" we face. This is expressed more adequately by our motto: "To Know Christ — And To Make Him Known."

ODDS AND ENDS

Night Nurse.

My mind is blank. I'm in a state;
It's time to study and much too late
To try and decipher the doctor's notes:
I can't understand a word I wrote.
When he gave the lecture, I gazed
into space

With an intelligent stare and a smile
on my face,

And now time flies and it seems I lack
An understanding of the G.I. tract.
But I'm not worried—the reason why?
Half the class slept more than I.

* * *

Do you remember the nurse who stayed up all night to see where the sun went down? It finally dawned on her.

* * *

The Assistant Editor of this year book was slowly going out of her mind because Kay was constantly taking a small piece of paper out of her pocket, looking at it, leering, then putting it back into her pocket.

After watching this for months, she managed one day, when Kay was working 4-12 to borrow the copy from the small pocket of Kay's cape. She opened the slip of paper with trembling hands. It read: " 'I' before 'E' except after 'C'."

CLASS OF '58.

The year lay open and unmarked, before us
 A student's brand-new copybook, wherein
 Time bade us write. We paused a moment,
 Sharpened our resolves like pencils, and began —
 Three long years ago.

DIET KITCHEN

MAN THE FIRE-HOSE!
 THE MIK'S BURNING
 AGAIN.

NOW WHO SAID
 THEY WEREN'T GOING
 TO WASH THE DISH?

THEY'VE
 CHANGED THE
 FORMULAS AGAIN!

END OF A
 PERFECT
 DAY?!

ALL I
 COULD GET
 WAS ONE
 BANANA.

YELLOW BANDS 1959 - A

(Continued from page 34)

GRENON, MARION

"When "Oh you guys" echoes down the hall, we know that Marion has just come up with another earth shaking problem about what to wear tonight.

HALL, SHARON

With Sharon around one could have her believing that a laminectomy is a caesarean section of a sheep.

HOORNE, RITA

Our genuine blond bombshell with a keen sense of humor.

HORDY, GERALDINE

Flin Flon's loss and our gain. She's got the typical "Nilf Nolf" qualities—determined, popular, and not so quiet.

JOHNSON, MARLENE

A versatile personality like hers will go a long way . . . especially when she is stricken with a severe case of "studyitis."

KRASILCHUK, LUBA

This girl's favorite pastime is roller skating. Wonder what the big attraction is, Luba?

KWONG, LOUISA

This petite lass hails from abroad and we must admit they don't come any finer, even in Manitoba.

Edmonton's contribution to S.B.H. . . . and a good one too.

Her endless amount of energy always amazes us . . . even after those Monday night bowling parties!

STRONG, KAY

Our mother away from home . . . Always eager to give a comforting word and a hearty smile to those who suffer the blues.

TAYLOR, EDITH

She has the superficial make-up of the peace atom, but also has the potential qualities of the H-bomb.

THIBODEAU, LUCILLE

A staunch believer in the saying that "Variety is the spice of Life."

Mary-Lou seems to be particular to cars with Hollywood mufflers and "Buds."

HILDEBRANDT, MARGARET

The bedrooms for student nurses in the new Nurses Residence of the St. Boniface Hospital are an example of how SIMMONS craftsmen can take cold raw materials such as steel and cotton and fashion them into finished products of warmth, comfort and beauty.

In contributing to the comfort and well being of those dedicated to serving the sick we believe that SIMMONS quality will make lasting friendships with all who earn their professional standing at this fine school of nursing.

The honesty of our efforts will be measured by these friendships and by the satisfaction and service that SIMMONS quality products give through the years.
